**Details:** 1/2" Thickness – Special Color

**General Contractor:** Voss Jorgensen Schueler

**Manufacturer of SonaSpray “FC”:**  
International Cellulose Corporation  
Phone: 800-444-1252

The Western Racquet Fitness Center utilized SonaSpray “FC” to help control their reverberation problems in the dining area. The application called for a special color to be applied to the ceiling. The Western Racquet Fitness Center is well known for their state of the art fitness machines, healthy foods and friendly environment. Unfortunately, noise problems were arising. Management knew this problem had to be addressed immediately. After meeting with the owners, we recommended to use International Cellulose Corporation’s SonaSpray “FC” to be sprayed to the ceiling. Once the application was applied, the owners, employees and patrons noticed a dramatic difference in the reduction of noise levels.

Restaurants, schools libraries, theaters, passenger terminals and offices are a small selection of project types in which SonaSpray “FC” can be utilized to provide an attractive acoustical treatment. Contact [Frantl Industries, Inc.](http://www.frantlindustries.com) today at 262-246-3866 for more information on how SonaSpray “FC” can enhance your new construction or renovation project or visit us on-line at [www.frantlindustries.com](http://www.frantlindustries.com).
