

Frantl Industries, Inc.

Fireproofing

Cementitious & Intumescent Fireproofing

PROJECT

Madison Municipal
Building
215 Martin Luther King,
Jr. Boulevard
Madison, WI 53703

DETAILS

GCP Monokote Type
MK-6 Fireproofing and
Intumescent Paint

The fireproofing system that worked best for the Madison Municipal Building was a combination of GCP Monokote Type MK-6 cementitious fireproofing paired with an intumescent coating. It's a seamless transition from the fireproofed deck to the intumescent coated beams, leaving a clean look for this exposed ceiling.
