## ACOUSTICAL INSULATION

### Foam & Ure-K

**PROJECT**  
St. Paul's Lutheran  
Church and School  
Gymnasium  
S66 W14325 W.  
Janesville Rd  
Muskego, WI  
**DETAILS**  
2" Foam  
1.5" Ure-K

St. Paul's Lutheran Church and School had a Premium Acoustical System applied to the ceiling of their Gymnasium.

Ure-K is a spray-applied 15-minute Thermal Barrier that is applied over exposed polyurethane foam to meet higher R-value requirements for insulation and provides exceptional sound absorption.

This type of applied system reduces excessive noise and ensures a high R-value insulation while adding an exposed finish that enhances the aesthetic beauty of the building.
