PROJECT

Wilson Elementary
School
1625 Wilson Ave,
Sheboygan, WI

DETAILS

Exterior: 2.5" of Lapolla
Foam-Lok AB2000

Interior: 2.5" of
GacoOnePass

Wilson Elementary School had a Urethane Foam System applied to the interior and exterior walls of their new addition. With Spray Foam Insulation, you'll never have to worry about meeting today's increasingly stringent building codes! Spray Applied Urethane Foam offers exceptional energy efficiency benefits and its sustainability statistics include:

- Improved air quality • Improved indoor comfort • Eliminating hot and cold spots
- Reduces the infiltration of pollutants, allergens, and other asthma triggers
- Insulation in all climate zones • Minimizing unwanted exterior noise
